RE: REFERENCE FOR SLOAN FENCING

To Whom It May Concern:

Sloan Fencing has been subcontracted to GBC, Inc. on several different projects at the Fort Greely Missile defense sight located at Fort Greely, Alaska during the course of the past 3 years.

GBC, Inc. has found the entire staff at Sloan Fencing to be professional and efficient. Their attention to detail and high regard for maintaining tight schedules and quality workmanship, is shown by the difficult projects which have been completed.

Often times the projects at Ft Greely required working closely with other contractors. Their on-site personnel have worked well with other contractors maintaining project flow with few project interruptions.

GBC, Inc. would not hesitate to hire Sloan Fencing for future work, and highly recommend them for future projects.

Sincerely,
GBC, Inc.

Gary Grose
President
